

# Evidence for Recognition of Prior Learning (RPL)

---

## *Installation of Grid-Connected PV with Battery Storage*

This form lists the evidence required to provide RPL for UEERE4001 as part of the GSES Grid-Connected Batteries Bridging Course. It must be submitted in conjunction with the Application and Enrolment Form. If the candidate wishes to apply for both the Design and Install components of the bridging course, the Evidence for RPL – Design of Grid-Connected PV with Battery Storage Form must also be submitted.

### **Instructions for submission**

Complete all relevant fields of this form. Some fields will ask for file names of attached evidence (e.g. photos, checklists). Please write the file names exactly as they are saved.

Please submit the documents in one of the following methods:

- Compress the folder that includes this completed form and all evidence documents into a 'zip' folder: the folder name should include your full name
- Upload the documents to a Dropbox or Google folder

Email the compressed folder or a link to the folder on Dropbox or Google Drive to [tutor@gses.com.au](mailto:tutor@gses.com.au).

Please call 02 9024 5312 or email [tutor@gses.com.au](mailto:tutor@gses.com.au) if you require assistance.

Name of applicant: \_\_\_\_\_

## Installation #1

### Grid-connected battery system

On what date was the installation completed? \_\_\_\_ / \_\_\_\_ / \_\_\_\_

What is the address of the installation?

---

---

Provide a copy of the completed JSA (job safety analysis) or SWMS (safe work method statement) for the installation. List the file name of the document as included in your submission.

---

What modifications did you make to the existing electrical system/s?

---

---

---

---

Provide photos of the modifications you made. List the file names of these photos as included in your submission.

a) \_\_\_\_\_

b) \_\_\_\_\_

c) \_\_\_\_\_

d) \_\_\_\_\_

e) \_\_\_\_\_

f) \_\_\_\_\_

What regulations and manufacturer's requirements did you take into account when installing the battery storage?

---

---

---

---

---

---

---

---

---

---

Provide photos of the battery storage installation. Please include photos showing the location of the battery protection and isolation in relation to location of the battery. List the file names of these photos as included in your submission?

- a) \_\_\_\_\_
- b) \_\_\_\_\_
- c) \_\_\_\_\_
- d) \_\_\_\_\_
- e) \_\_\_\_\_
- f) \_\_\_\_\_

Provide the completed commissioning sheet for the installation. It should include your name and signature as the installer/commissioner. List the file name of the document as included in your submission?

---

## Installation #2

### Grid-connected battery system

On what date was the installation completed? \_\_\_\_ / \_\_\_\_ / \_\_\_\_

What is the address of the installation?

---

---

Provide a copy of the completed JSA (job safety analysis) or SWMS (safe work method statement) for the installation. List the file name of the document as included in your submission.

---

What modifications did you make to the existing electrical system/s?

---

---

---

---

Provide photos of the modifications you made. List the file names of these photos as included in your submission.

a) \_\_\_\_\_

b) \_\_\_\_\_

c) \_\_\_\_\_

d) \_\_\_\_\_

e) \_\_\_\_\_

f) \_\_\_\_\_

What regulations and manufacturer's requirements did you take into account when installing the battery storage?

---

---

---

---

---

---

---

---

---

---

Provide photos of the battery storage installation. Please include photos showing the location of the battery protection and isolation in relation to location of the battery. List the file names of these photos as included in your submission?

- a) \_\_\_\_\_

- d) \_\_\_\_\_
- e) \_\_\_\_\_
- f) \_\_\_\_\_

Provide the completed commissioning sheet for the installation. It should include your name and signature as the installer/commissioner. List the file name of the document as included in your submission?

---

## Maintenance #1

### Grid-connected battery system OR stand-alone power system

Provide a completed maintenance checklist. It should include your name and signature. List the file name of the document as included in your submission.

---

Which aspect of the maintenance took longest? Why?

---

---

---

---

## Maintenance #2

### Grid-connected battery system OR stand-alone power system

Provide a completed maintenance checklist. It should include your name and signature. List the file name of the document as included in your submission.

---

Which aspect of the maintenance took longest? Why?

---

---

---

---

## Declaration

I declare that this form and the documents referenced therein were completed solely by me as my true and original work unless otherwise credited.
